

Leeming PS Parents of Children with BYOD Mac Books

Dear Parents

It is time to upgrade the image on the Mac Books to ensure connectivity to the school system and access to the most recent software.

To enable this, your child's Mac Book needs to be updated at home to the High Sierra Operating System and have all data backed up. (to an external drive or USB stick)

When this is done your child's laptop will be reconfigured at school if necessary.

If your child has a laptop which is parent managed please supply your username and password below to enable the technician to complete the imaging process:

Parent Managed User Name:

Parent Managed Password:

Please also supply the student's logon and password below to enable the technician to complete the imaging process.

Student logon name:

Student logon password:

I give the school permission to reimage my child's laptop.

Student Name _____ Parent Signature _____

Please return this form to the LPS admin office by Friday 9th February 2018 (In a sealed envelope if the computer is parent managed).
